About Me

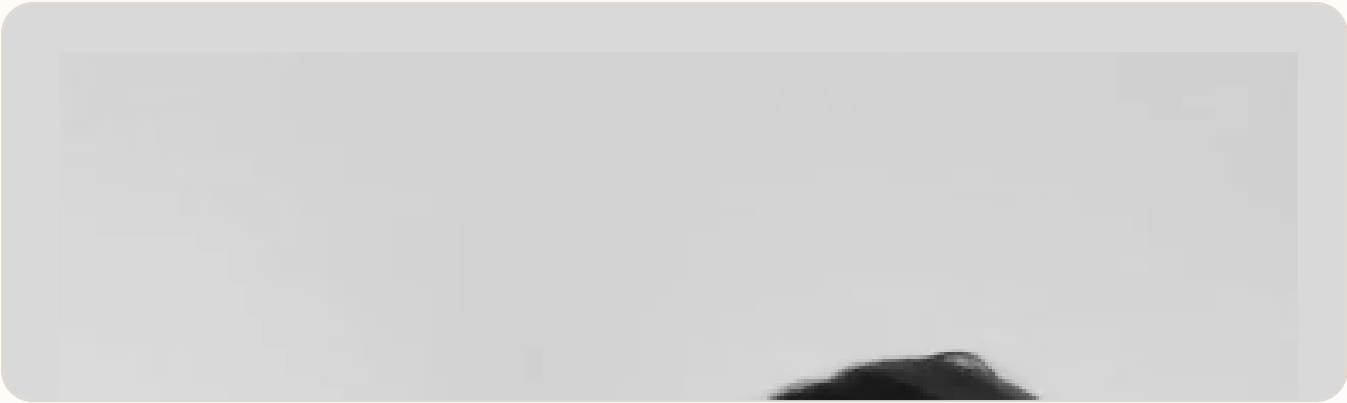

My name is Kollene Aika, an aspiring architect in my third year of the BS Architecture program at Mapúa University. I am motivated by a genuine desire to understand how design can create meaningful, sustainable, and human-centered environments.

Before entering architecture, I expected that the course would mostly focus on drawing and design. However, as I continue my journey, I realized that architecture is not only about drawing but also about thinking, writing, and expressing ideas clearly.

I tend to overthink, and sometimes I focus on negative possibilities and pressure myself. However, in a way, this also motivates me to do better. I constantly remind myself that I need to pass all my subjects because I understand how difficult life can be.

My current motivation comes from both personal and academic influences. One of the statements that really stayed with me was from our CE professor: "We should

claim for uno, but also act as uno.” This mindset, together with my belief in manifestation, pushes me to strive harder and stay disciplined in my studies.

Details

COURSE	AR135-1
SECTION	A58
STUDENT ID	2023106041

Interests

- Community-Centered Design
- Heritage Conservation
- Filipino Identity in Architecture
- Passive Cooling and Tropical Design
- Disaster-Resilient Infrastructure

Academic Work

Selected essays, research papers, and reflective writing from my architecture studies at Mapúa University. Click a card to view the full document.

TERM PAPER

June 19, 2026

RANG-AY: AgriHub in Urdaneta City, Pangasinan

Final term paper proposing an integrated agricultural hub combining farmer support services with flood-responsive design in Urdaneta City, Pangasinan.

CO-AUTHORED PAPER

May 08, 2026

Filipinism: A Model For Sustainable Architecture In Tropical Climates

Explores how traditional Filipino architectural principles offer sustainable, climate-responsive alternatives to imported Western design styles.

REFLECTIVE WRITING

Reading Architecture Through Ang Larawan

A film review analyzing how the ancestral house in Ang Larawan reflects themes of memory, heritage, and the tension between preservation and modernization.

RESEARCH PROPOSAL

A Farmers Development and Community Resilience Hub

Proposal for a facility integrating agricultural support services with flood-responsive community infrastructure.

RESEARCH PROPOSAL

A Women Empowerment and Livelihood Hub

Proposal for a community-centered facility supporting women economic independence and skills development.

PEER REVIEW

June 19, 2026

Peer Review - Sa Pagitan ng Kasaysayan at Kinabukasan

Critical review of a paper on revitalizing the Heritage District of Imus City.

REFLECTION

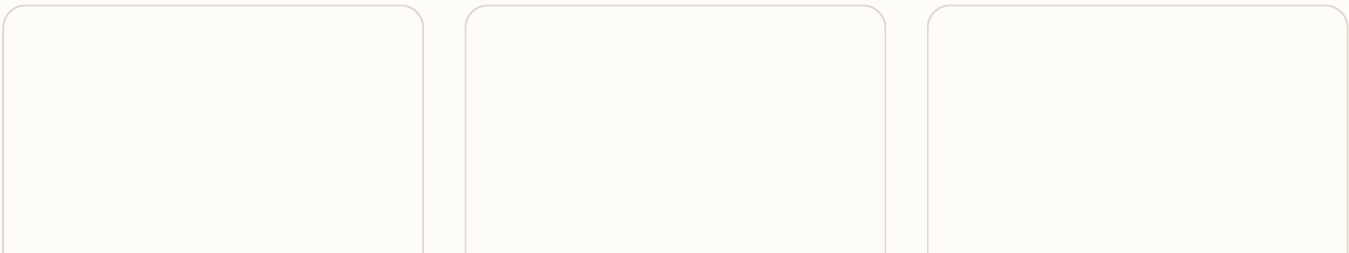

April 10, 2026

My Journey in Architecture: Growth, Motivation, and Aspirations

Personal reflection on the journey in architecture school and aspirations as a future architect.
